

## PC Font Settings

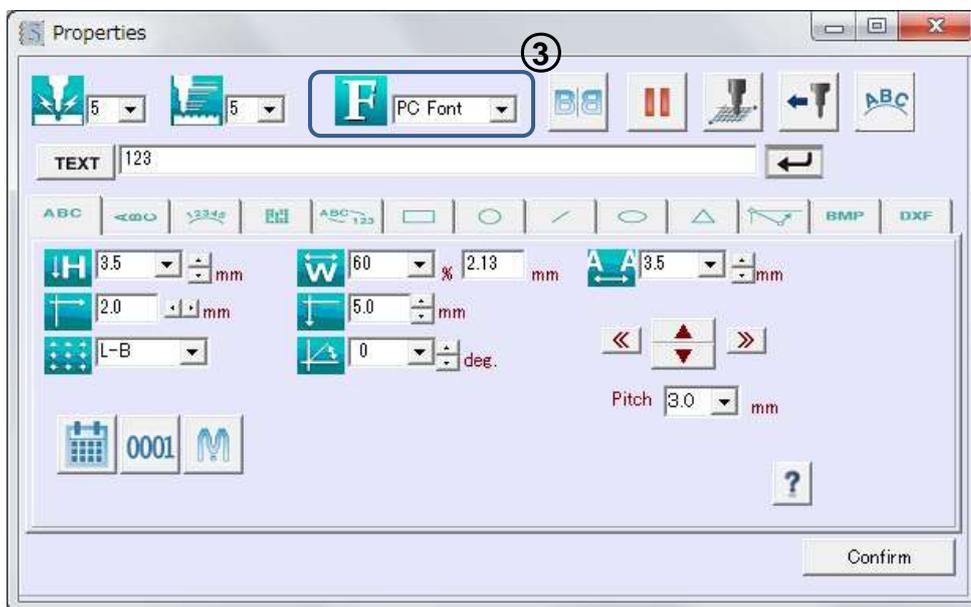

Menu → Font → PC Font

You can set Windows fonts, **but only when the marking device is connected to the PC.**

--- Instructions ---

1. Choose the Windows font to set from the pull-down menu.
2. Confirm the selection by clicking the **Confirm** button.
3. Choose the “PC font” in the property screen of each field will display the set font.

\*Some fonts cannot be set. (Not displayed in the preview).

\*Some fonts will not fit in the field frame.

**\*The fonts cannot be used for marking by saving in a file and then disconnecting the device from the PC.**
